Shivam Gupta

Python Full-Stack & AI Systems Engineer

+91-8269699824 guptashivam93660@gmail.com LinkedIn GitHub

SUMMARY

Full-stack and AI systems engineer experienced in **Python**, **Go (Golang)**, **Django REST**, **FastAPI**, **React.js**, and **TypeScript**. Shipped production client platforms and university-wide enterprise systems serving 5,000+ students with high-concurrency backends, isolated execution sandboxes, and modern UI architectures. President of ITM Developers Club with proven leadership in live technical workshops and problem-based engineering.

TECHNICAL SKILLS

Languages: Python, Go (Golang), JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3, Java

Backend & APIs: Django, Django REST Framework, FastAPI, Flask, Go (Chi), RESTful APIs, WebSockets, JWT

Frontend & UI: React.js, Next.js, Astro SSR, Redux, React Query, Tailwind CSS, Responsive Design

AI, ML & DevOps: Scikit-learn, PyTorch, Pandas, NumPy, NLP, Docker, PostgreSQL, SQLite, MongoDB, Git/GitHub, Postman, CI/CD, Model Context Protocol (MCP)

EXPERIENCE

Full Stack Engineer (Intern) May 2025 – Feb 2026
ITM University, Gwalior *On-site*

- Engineered high-throughput REST APIs and modular components using **Python** (Django REST) and React.js for university ERP portals.
- Optimized PostgreSQL database queries, implemented role-based access control (RBAC), and automated end-to-end data workflows across departments.

Subject Matter Expert (Internship) Jan 2024 – Aug 2024
Solvitude Solutions (Brainly.com, US) *Remote*

- Delivered accurate, high-quality technical solutions in Computer Science adhering to strict verification rubrics and SLAs.
- Applied step-by-step problem-based pedagogy, error analysis, and concept breakdown, maintaining a consistent >95% accuracy rating.

FEATURED PROJECTS

- **IDC Engineering Platform (SAY-IDC)** (Live)
  Architected an ultra-high concurrency coding assessment platform for 5,000+ university students. Built with a high-performance **Go (Golang)** backend (Chi, WebSockets) and an **Astro SSR + React** frontend; features isolated multi-language code execution sandboxes, PostgreSQL, Redis caching, and real-time proctoring.
- **NETWORKED — Client Consultancy Platform (Noida)** (Live)
  Delivered an end-to-end commercial platform for a Noida-based consultancy firm as solo developer (concept to production). Built a custom **Python / Django REST** CMS backend and a **React + TypeScript** frontend with self-serve content publishing, client inquiry pipelines, SEO optimization, and automated zero-downtime CI/CD deployment to a Linux VPS.
- **Open Figma MCP Server — Design Token & UI Bridge** (GitHub)
  High-throughput Model Context Protocol (MCP) server translating Figma designs into design tokens (8 formats) and generating production UI code across 8 frameworks (React, Vue, Svelte, Angular, HTML, Flutter, SwiftUI).

LEADERSHIP & ACHIEVEMENTS

- **President**, ITM Developers Club (IDC) — Organized and led the university-wide **Gen AI: 2-Day Workshop & Contest** (Oct 2025), training students on the complete software lifecycle from scratch to live cloud hosting.
- **Top Performer — Open Innovation**, Hacksagon 2025 (IEEE, ABV-IIITM Gwalior).
- **Certificate of Achievement**, Google Developer Groups (GDG) Solution Challenge 2025.
- **Secured 3rd Position**, Full Stack Development Bootcamp, ITM University (Dec 2025).

EDUCATION

B.Tech in Computer Science & Engineering 2023 – 2027
ITM University, Gwalior *CGPA: 7.23*

CERTIFICATIONS

- Career Essentials in Generative AI — Microsoft & LinkedIn (Verify)
- Postman API Fundamentals Student Expert — Postman (Verify)
- Full Stack Web Development with Django — Udemy (Verify)
- MongoDB Basics for Students — MongoDB (Verify)
